What's Newz

MATRIX TECHNOLOGY™

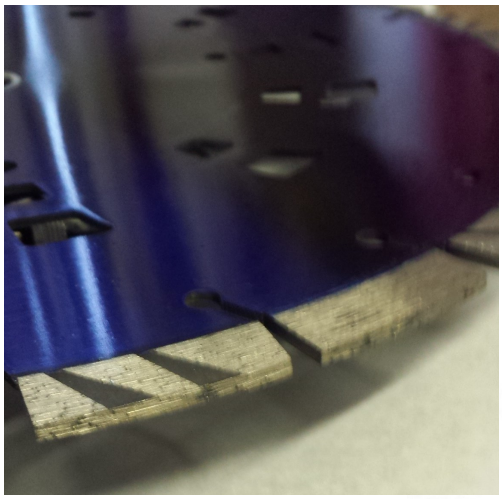
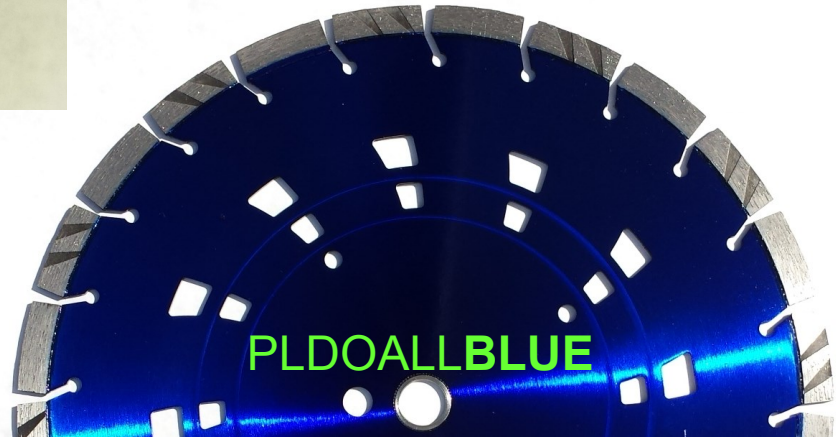
DoAll BLUE Blade



AVAILABLE IN 14" DIAMETER



The jumbo size alternating segments (over 1/2" tall) are designed for elevated cutting speeds! The combination of the universally fast cutting bond and selected diamonds, along with undercut protection makes the DOALLBLUE the ideal diamond blade for cutting a wide variety of materials.

One multi-purpose blade to cut cured concrete, green concrete, asphalt, brick, block, and more!

Designed for dry cutting, but to add to the versatility, you can use it in wet cutting applications as well.
